

REFERENCE FOR MR. ASHOK KUMAR, EZY LIVING, BANGALORE

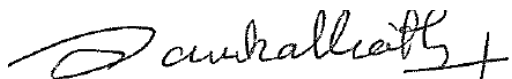

TO WHOSOEVER IT MAY CONCERN:

I had employed Mr. Ashok Kumar of Ezy Living for carrying out interior works of my apartment (Sobha Eternia, 1122) in 2017. At the time, Ashok had completed interior works for several Sobha Eternia apartments. The reference I received from several of the residents were unanimously positive, which gave me confidence in proceeding with the interior contract with Ashok. Now that the interior works of our flat is complete, I am pleased to provide this reference based on our own experience in dealing with Ashok.

My wife (Parveen) and I live in Canberra, Australia. Therefore, the interior works had to be carried out remotely, without us being able to physically inspect and supervise as the work progressed. We had to rely on Ashok for providing us with progress being made, and making decisions on quality fittings and appliances. We conveyed our detailed requirements for the kitchen, bathrooms, bedrooms and utility room through whatsapp. Additionally, we had ordered all our furniture online through Urban Ladder, which had to be received in the apartment on the day of delivery. The key to the apartment was held by Ashok during the entire period the work was being carried out. He was very obliging in taking deliveries of the furniture in the apartment, and keeping us informed. Ashok was also of great assistance in the selection of appliances for the apartment, placing order with the vendors, taking delivery of the appliances, and getting them installed in the apartment. Ashok proved himself to be very **trustworthy, reliable, professional, dependable, and cordial** in all his dealings with us. We continue to rely on Ashok's advice for various matters pertaining to the apartment, although the interior works are now complete and we have moved into the apartment.

We are very satisfied with the quality and workmanship of the interior works executed by Ashok in our apartment. We have no hesitation in recommending him especially to those who live overseas and have to rely on the contractor for providing quality supervision of interior works and the security of the apartment.
